Actor	User Stories	Success Scenarios	Failures Scenarios
Busy Professional	As a busy professional, I want to quickly find recipes using the ingredients I have, to prepare a meal in a short amount of time.So that I can be punctual with the office work.	I input my available pantry items and select a time filter. I find a recipe that matches my criteria and time constraints, allowing me to cook efficiently.	The system's ingredient suggestions are inaccurate or not relevant to my pantry.
Adventurous Cook	As an adventurous cook, I want to discover new ingredient combinations to experiment with. So that I can create unique dishes.	The system suggests an ingredient I hadn't considered before. I use it in a recipe, and the resulting dish is a delightful surprise, sparking my culinary creativity.	The ingredient suggestions are repetitive or unappetizing.
Novice Cook	As a novice cook, I need clear and detailed instructions to successfully prepare dishes, helping me gain confidence in the kitchen.	I follow the step-by-step instructions provided by the system, and my dish turns out well. The clear guidance boosts my cooking skills and self-assurance.	The recipe instructions are confusing or incomplete, causing me to struggle while cooking and potentially ruin the dish.
Home Chef	As a home chef, I want to save and organize my favorite recipes for future use, creating a personalized collection of go-to dishes. So that I	I save recipes I love and organize them within the system. Whenever I want to cook something I enjoyed, I can easily	The system's recipe-saving feature is unreliable or difficult to use. I lose access to my saved recipes.

		find the recipe and recreate the dish.	
Simple User	As a simple user, I want a list of recipes so that I can prepare recipes in less time.	I get a list of recipes as per my filters.	Recipe suggestions are inaccurate and take more time than the mentioned time in the filter.
	As a simple user, I can give feedback on the recipes so that other users get an idea about the recipe.	I am able to enter feedback to the system successfully and other users are successfully able to see the feedback.	I am not able to give feedback to the system.
Registered User	As a registered user, I want to add my own recipes so that people can see my recipes	I can successfully add my own recipe.	I am not able to add my recipe properly. It shows added but when I search for it then it does not show up.
Fitness freak	As a fitness freak, I want that system gives nutrients lists of that specific recipe.	I can successfully get the nutrients lists of the particular recipe and according to that I can choose my recipe.	System doesn't show correct nutrients lists of that specific recipe.
